

### **IN DESTINATION COVID-19 TESTING FACILITIES**

All air passengers five years of age or older will be required to test negative for COVID-19 before travelling from another country to Canada. Before boarding a flight, travelers will need to present a negative molecular COVID-19 test (which includes PCR or RT-LAMP test), taken within 72 hours before the scheduled flight departure time. In lieu of a negative COVID-19 test, a passenger will be allowed to board a plane to Canada with proof of a positive COVID-19 test taken between 14-90 days prior to departure, and the passenger must no longer be infectious.

It is the responsibility of each traveler to ensure they have all the valid travel documents required for entry into Canada.

Neither WestJet or WestJet Vacations are affiliated with the below testing facilities, and cannot guarantee quality, availability, pricing, or on-time delivery of COVID-19 tests.
